Dear Mr. Orr:

The referenced closure plan submitted by EMCON Associates of Pottstown, on your behalf, has been reviewed. Before final approval can be given, the following information is required:

1. Affirmation that the final rinse water from the decontamination process will be analyzed and submitted to the Department for approval.
2. The cost estimates for the above analysis.

Upon submission of the above information, the plan will be deemed approved. Since this plan is for a future closing, it will be kept on file in accordance with §75.265(o)(5)(i) of the Hazardous Waste Rules and Regulations. When this plan becomes active, the time constraints and other provisions of §75.265(o) must be complied with.
